ok, Well I may need to speak to your Boss and see whether EPA still wishes to be a cooperating agency. This will throw a pretty big wrinkle in our final EIS. Also, I am not clear whether the TCEQ will require the same level of analysis. It may also affect the schedule so perhaps Freeport should not have agreed to it so quickly.

Eric,

I just wanted to let you know that Freeport has withdrawn their application with us and will be resubmitting their application to TCEQ.

Please let me know if you have any questions.

Thanks,

Aimee
